Programming Skills

- **Programming Languages**: Python
- **Front-End Development** : HTML, CSS, JavaScript, jQuery Bootstrap
- **Back-end Development**: Node.js, Express.js, EJS
- **Database**: MySQL, PostgreSQL

Education

- **Jaipur National University** Jaipur
  Affl. Jaipur National University; MCA in Information Technology; GPA: 3.2— 8.0/10 (Absolute)July 2015 - April 2019

- **Sita Devi College**
  Affl. Maharshi Dayanand Saraswati University, Ajmer; Bachelor of Computer Applications (BCA); 95.6% (478/500) May 201

Projects

- **Netflix Homepage Clone** A visually striking and user-friendly interface, closely replicating the authentic Netflix homepage and showcasing meticulous attention to detail. The outcome is an engaging and aesthetically refined streaming-centric website - HTML, CSS, JavaScript
- **Blog Web Application** Developed a responsive Blog web application using Node.js, Express.js, and EJS. Enabled users to create, view, edit, and delete posts, focusing on user-friendly design and functionality without persistent data storage. Ensured a seamless user experience with comprehensive styling and responsive design.
- **Calculator Application** Built a functional calculator using HTML, CSS, and JavaScript. Implemented essential arithmetic operations with a clean and intuitive user interface. Focused on responsive design to ensure usability across various devices..
- **UV Protection App (API Integration)** Developed a UV Protection App using EJS, CSS, Node.js, and Express.js, integrated with the OpenUV API. Users can enter their city name to receive real-time UV index data and recommendations. The app provides actionable advice on UV protection based on the current UV index, ensuring user safety and awareness.

Certification

- **Full Stack Web Development Bootcamp By Angela Yu on Udemy**in Progress 70% Completed
- **Crash course on Python By Google on Coursera**June 2024
